

IAN L. COLLADO

Junior Software Developer | IT Support
iancollado001@gmail.com | +63 985 5665 046 | Purok Santan, Poblacion 8, Midsayap, Cotabato
Portfolio: ic-portfolio.vercel.app | GitHub: github.com/iancollado001-maker

PROFESSIONAL SUMMARY

Bachelor of Science in Computer Science graduate with practical experience developing and deploying web, desktop, and mobile applications through academic and personal projects. Skilled in PHP, JavaScript, C#, ASP.NET Core, and Xamarin, with a strong interest in IT support role, software development and building solutions that address real-world needs while continuously learning and growing as a software developer.

TECHNICAL SKILLS

- Languages: JavaScript, HTML/CSS, SQL, PHP, C#, Python, TypeScript
- Frameworks & Platforms: ASP.NET Core, Laravel, Xamarin, Next.js, React
- Tools & Practices: GitHub, Microsoft Visual Studio, VS Code, PostgreSQL, Vercel

ADDITIONAL SKILLS

- Microsoft Office: Word, Excel, PowerPoint, Visio
- Computer Systems & Configuration: hardware/software troubleshooting, OS installation

WORK EXPERIENCE

IBEX Global Solutions **A.Y. 2025-2026**
IT Support Intern — Lanang, Davao City

- Troubleshot and resolved hardware, software, and network issues; installed and configured computers and peripherals; provided technical support to employees; and documented issues, solutions, and procedures to minimize downtime and improve system reliability.
- Developed an IBEX Asset application to track IT tools and equipment, monitor asset status and assignments, improve inventory visibility and accountability, and collaborated with team members to streamline IT support processes and expedite issue resolution.

PROJECTS

GradeTrack (Thesis Project) *github.com/iancollado001-maker/GradeTrack*
PHP, MySQL, JavaScript, CSS, PDF Export

- A web-based academic prediction tool built with PHP and MySQL that uses logistic regression to forecast student graduation likelihood based on pre-admission data (e.g., SHS GPA, strand, sex). Includes PDF export for generated reports and was developed as part of a thesis project focused on predictive analytics in education.

IBEX IMS (On-the-Job Training Project) *github.com/iancollado001-maker/IBEX-IMS*
PHP, Laravel 13, Tailwind CSS 4, SQLite

- Developed a system to effectively track deployed tools and monitor damaged items, significantly enhancing inventory management accuracy.
- Implemented user-friendly interfaces to improve accessibility and user experience for staff managing the assets.

Arcane Estate Coffee *https://pos-ian-dev4.vercel.app/*
Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL

- A point-of-sale and order-ahead web app built for a specialty coffee roastery in Lapu-Lapu City, Cebu. Customers browse the menu, place orders for pickup or delivery, and pay by cash or GCash without creating an account, while the business tracks orders end-to-end on a Supabase-backend data layer.

EDUCATION

Notre Dame of Midsayap College **A.Y. 2025-2026**
Bachelor of Science in Computer Science (BSCS) — Midsayap, Cotabato

Villaria High School **A.Y. 2021-2022**
Accountancy and Business Management (ABM) Strand — Midsayap, Cotabato

CERTIFICATION & AWARDS

- **Certificate:** Certificate of Recognition – Main Author, "Gradetrack: A Logistic Regression-Based Model for Forecasting College Graduation Likelihood in the CITE Programs," published in the *San Eugenio Multidisciplinary Journal, Vol. 4, No. 1 (NDMC, August 2026)*
- **Awards:** Graduated as Class Valedictorian in A.Y. 2021-2022; Recognized as a Dean's Lister from A.Y. 2022 to 2025
